

About Us

At Hinshaw, we value long-term client relationships. That's why we make it a priority to help contribute to our client's success, whether that means solving a problem or helping to achieve their goal. We like to think that we are more than just our clients' "lawyers." We feel we are on the same journey with our clients — to grow their business into a sustainable institution. Sometimes this requires next generation solutions; in other words, a little creativity applied to legal issues or problems. Other times, it requires just purely practical thinking. We do both. Whatever the matter, our advice and counsel are tailored to our clients, which can only come from a strong partnership and deep understanding of their business and objectives.

Our team of lawyers can provide a wide variety of sophisticated legal advice and counsel. Additionally, since we are located in many of the major cities across the country, we can provide national depth of expertise coupled with a local or regional presence and local or regional knowledge. Across all of our offices, we strive to consistently deliver service at the highest levels of quality and reliability, giving our clients a one-firm approach and giving us the long-lasting relationships we treasure.
