June 25, 2019
8:00 a.m. to 11:00 a.m.
Event Sponsor: NYEW Official Breakfast Series

Practices & Industries

Environmental
Renewable Energy

June 25, 2019

Hodgson Russ 605 3rd Avenue New York, NY 10158

With renewable energy generation and DER on the rise, an increased need for energy storage is coming as well. Energy policy promotes grid-level storage, utilities build on these opportunities. Energy storage will enable cities, states, and countries to better meet their carbon reduction goals to manage the grid, and improve resiliency. This event will explore the economic and technical challenges for ISOs, utilities and developers.

ENERGY STORAGE: THE HOLY GRAIL OF THE POWER SECTOR

Mila Buckner will be speaking on the panel at this event.
