Kinsey O'Brien

Hodgson Russ attorneys Lura Bechtel and Kinsey O'Brien discuss employers mental health in the Buffalo Business First article, "Employers, don't try to diagnose behavioral health conditions."

Since the beginning of the Covid-19 pandemic, conversations about behavioral health issues have become less taboo in the workplace. "From a legal standpoint, employers should avoid having those conversations and look to establish some best practices for the next time a behavioral health issue presents in the workplace."
